

COMBINED CITY & GUILDS LEVEL 2 AWARD IN WORKING IN HIGH RISK CONFINED SPACES (6160-03) AND LEVEL 3 AWARD IN WORKING AS A MEMBER OF A RESCUE AND RECOVERY TEAM IN CONFINED SPACES (6160-08).

Aims & Objectives

This City & Guilds course is designed to reflect the national occupational standard for controlling entry and arrangements for working in a high risk confined space and working within a recovery team.

Water Industry Applications Include: Potable water operations, sewage treatment processes, drain and sewer cleaning, confined spaces prone to surface water flooding.

Non-Water Industry Applications Include:

Pharmaceutical, petrochemical, asbestos removal, vehicle manufacturing and servicing, aeronautical, construction, communications, power and utilities, gas and electrical engineering, mechanical engineering, mining, quarrying, and tunnelling operations.

Endorsed by Energy and Utility Skills, this course ensures adherence to industry standards.

Course Agenda

The training includes a mix of classroom-based tutorials and practical assignments, with assessments conducted through both theoretical and practical tests. The detailed agenda includes learning objectives and assessment criteria from both courses:

City & Guilds Level 2 Award in Working in High Risk confined spaces (6160-03)

City & Guilds Level 3 Award in Working as a member of a rescue and recovery team in confined spaces (6160-08).

Course Duration and Requirements

This combined course runs over 5 days and is aimed at people who are part of a rescue team but don't currently have any certifications.

Prerequisites:

Participants must meet the following criteria:

Minimum age of 18

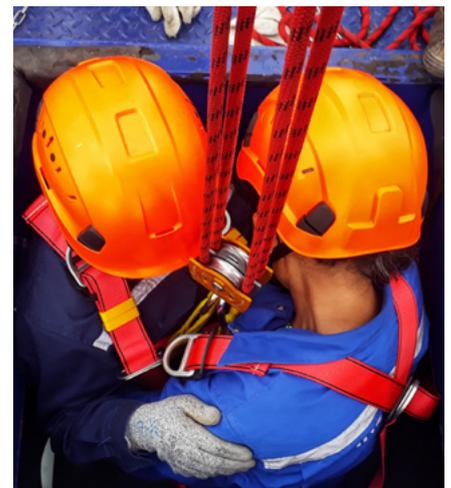

Clean-shaven (for breathing apparatus)

Medically fit to wear a breathing apparatus and enter confined spaces (proof required).

No conditions affecting eyesight, hearing, heart, blood pressure, epilepsy, fear of heights or confined spaces, vertigo, balance issues, limb function, alcohol or drug dependence, or psychiatric illness.

Enrolment Requirements:

Due to the critical nature of confined space work and the importance of clear communication, assessments are conducted in English, with no provision for interpreters. Delegates must inform the training team in advance if training on a "Mask Style Escape Set (PP10/PP15)" is required, as standard training uses the Hooded Style Escape Set (CF10/CF15).

Certification

Both a Level 2 Award in Working in High Risk Combined Spaces (6160-03) and a Level 3 Award in Working as a member of a rescue and recovery team in confined spaces (6160-08) certificate will be issued.
